

Release on scammers impersonating Vickers Venture Partners

Singapore, 5 July 2022 – Vickers Venture Partners has recently been made aware of a party impersonating us, creating websites, Telegram channels and a YouTube account, claiming to have launched the Vickers Venture AI Trading platform and soliciting the public to open a trading account with them.

Please be advised that the websites, Telegram channels and YouTube channels and their requests are fraudulent. Vickers would like to clarify that we have not created such platform and that this is a clear case of identity theft.

Vickers Venture Partners manages venture capital investments which are only made available to accredited investors through our six funds and co-investment vehicles. We do not provide any investment services to the public. Investors should be aware that if they open an account with this trading platform, they are not investing in any vehicles managed by Vickers Venture Partners.

Please be forewarned that any attempt to solicit investments from any member of the public using Vickers Venture Partners' name and/or brand is a fraud or scam. A police report has been lodged in Singapore on this.

To date, we have uncovered that the fraudulent party has done the following:

- A fake press release has been placed on the platform Coinspeaker. (<https://www.coinspeaker.com/vickers-venture-ai-great-impact-technology-development-program/>). Vickers Venture Partners did not send this press release.
- Two fake telegram channels have been created (@VickersVenture and @VickersCoinBase). Vickers Venture Partners does not have an active Telegram channel.
- Six videos have been uploaded to a YouTube channel claiming to be us. (<https://www.youtube.com/channel/UCUMq7LwPLOyXhtCzRnm5Xeg>). Currently, Vickers Venture Partners does not have an active YouTube account.
- Two domains that have been set up in relation to this (www.vickersventure.net and www.vickersventureai.com). These are not legitimate websites for Vickers Venture Partners, whose only legitimate website is <https://www.vickersventure.com/>

We have reported the scam to the social media organisations as well as Coinspeaker. We reserve the right to pursue legal action and remedies against any person, entity or company that infringes on our trademarks and/or impersonates Vickers Venture Partners.
